What Really Matters

Somewhere between the procrastination and the homework
And the incessant forwards
And the friendships
And the calls to each other complaining about crushes
Somewhere between the phone calls to old friends
And the "I miss you's"
And the "I love you's"
And the "What are you doing tonight's?"
And somewhere between all the changing, the growing...
Somewhere between the classes
And the skipping of classes
And the studying for tests
And the pretending to study for tests
And the downright NOT studying for tests...
I forgot.
I forgot what high school is all about.
I forgot what it meant to cry
I forgot that pretending to be happy doesn't make you happy
And that pretending to be smart doesn't make you smart
I forgot you can't just forget the past in fear of the future
I forgot that you can't control falling in love
And that you can't make yourself fall in love
I learned I can love
I learned it's okay to mess up
And it's okay to feel like crud
I learned it's okay to complain and whine to all your friends
I learned sometimes the things you want most you just can't have
I learned the greatest thing about high school isn't the parties or
The hook-ups...It's the friendships, which means taking chances
I learned that sometimes the things we want to forget are the things
Which we need to talk about most
But, basically, I just learned that my friends both old and new
Are the most important people to me in the world
And without them I wouldn't be who I am today
So this is a thank you to all my friends for always being there and
I'll never forget you...

The BEST of TIMES

Class History

Dear Class of 2003,

This is it. Four years of high school are now over and we are off to start a new way of life. It is important to realize that as we move on, we are not leaving empty handed. We have gained so much more than just an education in our years here at PVMHS. Not only have we watched each other grow up but we have also built deep and lasting friendships that we will never be able to forget. We have learned valuable life lessons the hard way by continuously having to juggle our many extra curricular activities and we've gained experience in time management and dealing with stress. We've produced star athletes, multi-talented performers, and future leaders and we've done it all with pride. Who would have thought four years ago that we would have come so far in such a short time?

Think back to that first day of freshman year when you came to school with nervous anticipation wondering if you were ever going to be able to find your classes. Then, after you were able to find your classes, the next mission was to get rid of that forty pound backpack and carry only one set of books to class each time. Senior year seemed so far away back then.

Sophomore year came and brought with it the MCAS test. Our class was the first class that required a passing grade in order to graduate. As annoying as it was, we were able to get through it together and shape the way for the upcoming classes. We continued to grow up and were no longer the "little ones". The huge high school that once felt overwhelming enormous no longer seemed so big.

Who could forget junior year? That year was probably the most memorable year of high school. We worked hard in class to get the best grades we could possibly get because it was drilled into our heads that "this is the year colleges look at". We were finally able to gather as a class at the semi-formal and prom and the Patriots finally won the Super Bowl.

It's safe to say that everyone remembers vividly where they were on September 11, 2001. Mr. Patuleia came over the loud speaker during third period to inform us that the planes had crashed into the World Trade Centers and the Pentagon. No one realized then how much of an effect this tragedy would have on our nation and its people. Together we watched the towers collapse, together we watched the families mourn, and together we stayed strong and confident that we could rebuild our broken country. It was a scary time for all of us and we could do nothing else but support the families and friends who lost their loved ones.

Senior year has now come and gone. In between school work, the SAT's, and college applications, we managed to relax and have fun. We've enjoyed semi-formals, proms, luaus, Halloween dances, date auctions, and spaghetti suppers. As a class, we have grown a whole lot closer and have been able to make a huge impression on this school. It is now our time to go forward. No longer will we have four minutes to get to class on time. No longer will we have our favorite kick-open locker. We will no longer enjoy the thrill of attempting to skip classes and no longer will we wake up every morning at the same time with the assurance that we'll see a familiar face. The Class of 2003 has accomplished so much. It is now time to move on and we know that wherever you go, you'll be successful. So go on and do just that.

This is it. We're done. We wish all of you the best of luck in whatever you do and Congratulations! We made it!

Sincerely,

Jenna Ward – Senior Class Co-President

Risa Greenspan – Senior Class Secretary

RAVEL TIME

In Memorium to Spencer Winn

1984-2000

A life was taken too early
We grieve and mourn too early
We knew you very well that great kid that you were
You were a part of our lives I wish they found a cure
I know you're up there looking down on us,
When we wake up in the morning and step onto the bus
You're probably up in Heaven, eating your precious ham
You left before you could grow up and become a man
You used to wear your shorts outside when it was cold.
We hope God likes them so the style won't get old
But through all the grief and tragedy, we know you're not done
Because we know you are in Heaven, for only the good die young.
